Hyperbaric Oxygen Therapy in Athletic Injuries

[Hyperbaricka oxygenoterapie pri zraneni sportovcu.] Cas Lek Cesk 2002 May 24;141(10):304-6 (ISSN: 0008-7335) Dolezal V Asociace pracovniku hyperbaricke mediciny

Hyperbaric oxygen therapy (HBOT) may play an important role in management of sport injuries: in football and hockey players, and after other sport activities.

When HBO2 is applied together with physical therapy and rehabilitation procedures, it can accelerate the healing and thus to decrease the costs of treatment.
